

Course Description

The incidence of cirrhosis and liver cancer are increasing and are responsible for more than 45,000 deaths annually in the United States. The Liver Transplant Center at Westchester Medical Center, flagship of the Westchester Medical Center Health Network (WMCHHealth), and the American Liver Foundation, are hosting a symposium for medical professionals on advances in the management of liver cancer. The conference will improve participants' understanding of the screening and diagnosis of liver cancer, as well as treatment options, including interventional radiology, medical therapy, hepatobiliary surgery and liver transplantation. Additionally, participants will learn about diagnosis and treatment of liver cancer in pediatric patients.

Target Audience

Gastroenterologists, oncologists, internists, pediatricians, surgeons, nurses and other health professionals.

Learning Objectives

Conference participants will:

Learn about the incidence of liver cancer in patients with alcoholic and non-alcoholic liver disease

Understand methods for screening and diagnosing liver cancer

Learn about treatment options for liver cancer, including medical therapy, interventional radiology, hepatobiliary surgery and transplantation

Learn about liver cancer in pediatric patients

CME Accreditation Statement

New York Medical College is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. New York Medical College designates this Live activity for a maximum of *2.0 AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity. There is no commercial support for this activity.
